19 October 2009

Dear Mr. Gladstone,

I am Parke Godfrey, a tenured associate professor in the Department of Computer Science & Engineering at York University in Toronto, Canada. At the request of Ms. Susan Lindauer, I am providing this brief affidavit describing parts of my testimony at a hearing before Judge Loretta Preska in June 2008. This is to collaborate her story for publication.

1. I have known Ms. Lindauer since 1991, while I was working on my doctoral degree at the University of Maryland, College Park. We were close friends until I moved to Toronto to accept a faculty post at York University in August of 1999.
 - a. During that period, I spoke with Ms. Lindauer two or three times weekly, and we met once weekly, on average.
 - b. Ms. Lindauer has an artistic and mercurial temperament. She is passionate as an activist supporting her causes. She is a creative writer and former journalist. I never observed mental instability or mental illness in her behavior.
2. Ms. Lindauer had various concerns and predictions of terrorist attacks, which she confided in me and others.
 - a. In the year 2000, coinciding with the Lockerbie trial, Ms. Lindauer confided in me on several occasions her concern that the next terrorist attack on the United States would involve airplane hijackings and/or airplane bombings. She warned me to stay out of New York City.
 - b. In the spring and summer of 2001, on several occasions Ms. Lindauer expressed heightened concern that a terrorist attack was in the works that would strike the southern part of Manhattan. She claimed it would reprise the 1993 attack on the World Trade Center. She described the attack as completing the cycle started in that first attack.
 - c. I have read articles by Michael Collins describing Ms. Lindauer's 9/11 warning, and I am satisfied that he has accurately described my testimony before Judge Preska in June, 2008.
3. I was involved with Ms. Lindauer's case in various ways after her arrest in March 2004.
 - a. In September, 2004, I was interviewed by the FBI in Mississauga (adjacent to Toronto) in the presence of an RCMP officer. (The RCMP insisted upon this as the interview was in Canada and I was a Canadian resident.) I spoke with FBI Special Agent Suzan LeTourneau. While the interview focused on mundane details of Ms. Lindauer's life and

Despite my friendship with Ms. Lindauer and my dislike and distrust of activities of the Federal Administration at the time, I tried to keep an open mind and to cooperate with the prosecution. I could only hope that the government had just cause in pursuing such a case, given the vigor and energy they put in it, despite what that would mean for Susan. Otherwise, it is a poor indictment of justice.

On the other hand, I have never had any direct reasons to believe the points of the indictment against Ms. Lindauer, or evidence myself of them. I have confidence and trust in Ms. Lindauer. Furthermore, I have been completely appalled over the way the Justice Department proceeded in its dealings with Ms. Lindauer, as I hope most anyone familiar with her case would be.

Throughout this entire ordeal, Ms. Lindauer has suffered harassment. She faced inexcusable delays in setting a trial date (or in dropping the charges). She was repeatedly questioned in court over the reliability of her terrorist warnings, despite that they had been collaborated by me and by many others in affidavits and under oath in spoken testimony. She was incarcerated in a mental facility within a federal prison for, I believe, nine months, 1,300 miles from her home for supposed observation. And then held in confinement for months afterwards. The FBI and the US Attorneys Office behavior in Ms. Lindauer's case were abhorrent. It is quite clear that much more was going on. Susan Lindauer's story should be told.

If anyone should seek further clarification about issues raised in this letter, I would be available to speak with them. I can be reached in Toronto at ph. 416-736-2100 x 66671 during working hours. Thank you much.

Sincerely,

A handwritten signature in cursive script that reads "Parke Godfrey". The ink is dark and the handwriting is fluid and somewhat slanted to the right.

Parke Godfrey, PhD
